

There's No Former Tougher than a Tuff Form® Former

The Tuff Form® Former is five times more durable than recycled plastic formers. Due to its rigidity, the former will not warp or deform in temperatures reached in a typical bathroom setting.

- Tested to withstand 560 lbs. (up to 1100 lbs. with additional crossbrace reinforcement)
- Tested in temperatures up to 200°F; perfect for radiant heat
- Made of solid Glass Reinforced Plastic (GRP) commonly used in cars, aircrafts and boats
- A proven product with +100,000 of installations worldwide

Due to the high level of confidence in the longevity of products, AKW feels assured in offering a lifetime warranty, excluding normal wear and tear, in general domestic applications.

Specifications

Tuff Form® Wet Floor Formers are extremely versatile allowing for endless possibilities.

- Formers can be placed in bathroom corners or alcoves
- The wet room system can be created beyond the size of the former to increase the size of the showering area
- The offset drain location allows repositioning of base to avoid joists
- All formers can be cut to length within 6" of the drain to be installed around awkward shapes without losing the structural integrity

Dimensions	Handing	Code
35 ¹ / ₂ " x 35 ¹ / ₂ "	Non-handed	21000
39 ³ / ₈ " x 39 ³ / ₈ "	Non-handed	21008

Tuff Form® | Wet Room System

Tuff Form® Wet Room System

The Tuff Form® Wet Room System revolutionizes the vision of a typical bathroom, redefining it with its ease of installation and a myriad of styling options.

While giving the homeowner the ability to expand their palette in designing a bathroom that is truly their own, the Tuff

Form® System is not only a stylish option but a sensible one that combines functionality and versatility in its application. Leave all inhibitions at the door; the Tuff Form® System is what you make it.

A Room with a View

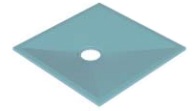

Create a bold room filled with color or a soothing sanctuary, with subtle hues. The Tuff Form® System allows you to personalize your bathroom into the oasis of your choosing. The Tuff Form® Former provides the foundation for a truly unique space designed with your tastes in mind.

Expand Your Experience

While ordinary bathrooms confine you to a small space, a bathroom outfitted with the Tuff Form® System reinvents the perception of the shower by creating a spacious escape for you to enjoy. The Tuff Form® System can transform any small current tub space to one that is much larger. With more open space, taking a shower is no longer a daily task but an experience. More space allows lighting to permeate the bathroom, creating a serene atmosphere while you prepare for your day.

Wet Room System Components

Tuff Form® Wet Floor Former

As building block of the wet room system, the Tuff Form® Former is designed for superb strength, quality and ease of installation. Available in 9 sizes.

Stainless Steel Drain Adaptor

Features a sleek, stainless steel grid cover that opens to assist in cleaning.

Seamless Design

The absence of a step allows the showering area to blend effortlessly into the room, providing a modern, zero-threshold space that all can enjoy. The Tuff Form® System incorporates the principles of universal design to allow access for those of all ages and abilities. With a shower as attractive and stylish as one fitted with the Tuff Form® System, why not allow everyone to enjoy it?

Full Height Glass Shower Screens

Polished aluminum finish provides a contemporary touch. Available in wall mounted or freestanding models with the option to pair two screens together in various configurations.
